DEVARINTI LAKSHMIKANTH

Computer Science & Engineering (AI & ML) Student

Tirupati, Andhra Pradesh, India | +91 7569354317 | drlakshmikanth9@gmail.com

linkedin.com/in/devarinti-lakshmikanth-0a0140289 | github.com/drlakshmikanth9-ops

PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering (AI & ML) student with a strong foundation in Machine Learning, Predictive Analytics, Time Series Analysis, Business Analytics, Cloud Computing, and Full-Stack Development. Completed structured learning pathways from L&T EduTech and AWS Academy, gaining exposure to data-driven problem solving, machine learning applications, analytical tools, cloud fundamentals, and Python-based web development. Experienced in building academic projects using Python, TensorFlow, Keras, OpenCV, MySQL, PHP, and JavaScript. Seeking opportunities in Software Development, Data Analytics, Machine Learning, or Cloud-related roles.

EDUCATION

Mohan Babu University, Tirupati, Andhra Pradesh Expected Graduation: 2027

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning) | CGPA: 7.33/10.00

TECHNICAL SKILLS

Programming Languages: Python, Java, C, JavaScript, SQL

Machine Learning & Analytics: Machine Learning, Predictive Analytics, Time Series Analysis, Business Analytics, Data Analysis

AI/ML Tools: TensorFlow, Keras, OpenCV

Web Technologies: HTML, CSS, JavaScript, PHP, React (Learning), Next.js (Learning)

Databases: MySQL, MongoDB

Cloud & Tools: AWS Cloud Foundations, Git, GitHub, VS Code, Docker (Basic)

Core Concepts: Data Structures & Algorithms, OOP, DBMS, REST APIs, Agile Methodology

PROJECTS

Brain Tumor Detection — *Machine Learning Project (Python, TensorFlow, Keras, OpenCV)*

- Developed a CNN-based model to classify brain MRI images as tumor / no tumor, achieving 90%+ test accuracy.
- Preprocessed medical images using OpenCV and trained the model with TensorFlow and Keras.

Student Registration System — *Full-Stack Mini Project (HTML, CSS, JavaScript, PHP, MySQL)*

- Built a student registration system with client-side and server-side validation.
- Designed MySQL database tables and implemented data insertion/validation using PHP.

E-Commerce Product Listing Page — *Learning Project (React, Node.js, Express, MySQL)*

- Built a product listing interface with search/filtering and REST API endpoints for product data.
- Used Git for version control; deployed the frontend on Vercel.

CERTIFICATIONS & PROFESSIONAL LEARNING

Salesforce Certified Platform Developer — *Salesforce | Trailhead (Credential ID: 8199525 | Issued: October 10, 2026)*

- Earned the Salesforce Certified Platform Developer credential; verify at sforce.co/verifycerts.

Python Developer Career Pathway — L&T EduTech | LearnKonnect (8 Courses | 35 Hours)

- Completed structured training in Python Programming and Web Development fundamentals.

Machine Learning Engineer Career Pathway — L&T EduTech | LearnKonnect (21 Courses | 170 Hours)

- Industry Applications of Predictive Analytics (5 Courses, 69 Hrs) · Tools for Predictive Analytics (4 Courses, 27 Hrs)
- Time Series Analysis (6 Courses, 18 Hrs) · Machine Learning in Business Analytics (6 Courses, 56 Hrs)

AWS Academy Graduate – Cloud Foundations — AWS Academy Training Badge (20 Hours)

- Gained foundational knowledge of AWS Cloud services and cloud computing concepts.

ACHIEVEMENTS

- Completed 225+ hours of structured learning across 29 courses in Python Development, Predictive Analytics, Time Series Analysis, and Machine Learning through L&T EduTech.
- Earned the AWS Academy Graduate – Cloud Foundations Training Badge.
- Developed academic projects spanning Machine Learning, Web Development, Database Management, and Full-Stack Technologies.
- Participated in coding contests and technical events organized by the university.

CORE STRENGTHS

Problem Solving • Analytical Thinking • Machine Learning Fundamentals • Data Analysis • Team Collaboration • Adaptability • Communication • Continuous Learning
